

ISLE OF MAN - Tynwald Day

Midway between England and Ireland, the Isle of Man has attracted visitors since the Vikings arrived in about 800AD. If they could come back today, they'd find a holiday island with something for just about everyone. Douglas is the lively capital where you can ride on horse-drawn trams or steam or electric trains. Its wide bay and promenade offer entertainment and many fine restaurants. There's all kinds of scenery. Wild and rugged mountains give way to pretty countryside and picturesque villages before these meet the sea and the long, sandy beaches of the perfect holiday isle.
